

Everything you need to know about SivalBP Pre Weathered Timber Cladding

SivalBP Pre Weathered Timber Cladding

The New Age range of SivalBP Nordic Pine cladding uses a thermally modified Scandinavian Pine, which offers exceptional durability of up to 50 years.

Pre-coated in a range of colours, the solvent-free coating will provide a low maintenance product which compliments the natural silver/grey weathering of the timber façade over years to come.

Origin

Scandinavia

Sustainability

PEFC Certified

Durability

In Use Class 3 application (BS EN 335:2013 - Durability of wood products)

Moisture Content

Approx. 4-6% M/C.

Density

380-450kg/m³

Dimensions

Ex 25, x 125, 150mm

Lengths

3.6m – 5.1m (300mm increments).

Movement

Low moisture movement.

Stability

Stable (Thermally Modified Pine).

Please get in touch with us on sales@vincenttimber.co.uk at vincenttimber.co.uk or on **0121 772 5511** if there's anything you need.

What should I expect?

All profiles supplied end-matched for quicker installation and reduced material wastage.

Fire Treatment

Natural Fire Rating: 22 Euroclass D solutions without flame retardant autoclave.

Fire Treatment: Not compatible with additional fire treatments.

Fixings

Stainless Steel fixings are always recommended.

What else do I need to consider before I order?

Coating: Offered in a range of colours, including 'pre-weathered' grey, to get that silver/grey appearance on your project from the outset. Coatings are all solvent-free, anti-UV and offer water-repellent finishes.

The coating is also non-filming forming, it soaks into the wood and therefore does not flake over time or require ongoing maintenance.

Offering a minimum 2 years performance, Sivalbp compliments the natural weathering of the timber which will show through the coating (subject to exposure), resulting in a natural grey for your facade.
